2. Academic Overview

ADEN University is dedicated to fostering innovation in education, knowledge, and business. The institution seamlessly integrates and applies pertinent educational practices tailored to meet the needs and aspirations of international business professionals. Emphasizing practical learning, ADEN focuses on developing essential competencies and skills that enable our students to smoothly transition into the workplace.

2.1 ADEN University Learning Model

ADEN University offers its educational programs through a 24/7/365 online learning platform, which was developed following best practices to ensure accessibility, usability, collaboration, security, and measurable learning outcomes.

The platform serves various purposes, including providing access to course content, delivering materials and evaluations, promoting networking, recording academic data, facilitating student services, and enabling both asynchronous and synchronous communication among students, faculty, and staff.

Our learning model consists of two primary goals for our programs. The first is to encourage students to develop intellectual curiosity, while the second is to cultivate creative capacity for independent thought and action. Additionally, these programs are designed to focus on the global marketplace. ADEN University aims to equip its graduates with essential tools to interact effectively with other members of society, adapt to change, and serve as business advocates.

The curriculum development process at ADEN involves several data-gathering methods to identify unmet needs. This data drives the effective design of curricular content. The second step involves gathering data from both direct sources (surveys, interviews, and focus groups) and indirect sources (educational statistical reports, legislative documents, educational journals, and magazines). This leads to the selection of relevant, current, and available academic resources from ADEN's online library, ensuring they meet the needs of students, faculty, and staff.

The most crucial aspect of this learning model is our human capital: faculty and students. ADEN University emphasizes employing faculty members who can effectively convey learning outcomes and instill values such as dignity, solidarity, community, and pragmatism in our students.

In conclusion, our institution's premise is to provide a comprehensive one-stop system that aligns with our mission of fully integrating learning, student services, and faculty/staff support.

2.2 Assessment and Quality Assurance (QA)

The University's processes are regularly monitored to ensure they align with the Institution's mission, vision, and objectives. Our faculty, staff, and administrators collaborate to maintain the organization's structure and integrity, demonstrating a steadfast commitment to quality at

all levels of the Institution.

2.3 Academic Policies

2.3.1 Academic Term

ADEN University defines an academic term as a period of eight consecutive weeks, as listed in the academic calendar. During each term, students may enroll in a maximum of two courses. This limitation is put in place to help them effectively navigate the rigorous academic demands and ensure their success.

2.3.2 Definition of Unit of Credit

At ADEN University, students receive semester credits based on the Carnegie Unit, which measures distance learning courses by the achieved learning outcomes from 45 hours of student work per one semester credit hour. For each credit hour earned, students must dedicate a minimum of 15 hours to "Academic Engagement" and 30 hours to preparation.

For instance, a 3-credit hour course at ADEN University entails a total of 135 semester hours. This breakdown comprises 45 hours of academic engagement and 90 hours of preparation time, spread over an eight-week term. The preparation process typically involves completing homework, reading and study time, as well as assignments and projects.

2.3.3 Credit for Prior Learning

Currently, ADEN University does not offer credit by examination, credit for prior learning, or credit based on life experience.

2.3.4 Teach-Out Programs

If the University closes a program, a Teach-Out Plan will guarantee that active students in that program receive the necessary education, materials, and student services to successfully complete their studies. However, it is essential for the student to maintain an active status to

be eligible for inclusion in the Teach-Out Plan. If a student seeks readmission after a program closure, they will need to select a different program upon re-admittance.

2.3.5 Grades

Grading for the courses is determined by the professor and is primarily based on the results of course assignments, exams, and other specified criteria. The grading criteria for each course are clearly outlined in the course syllabus. Furthermore, the general University grading scale and its corresponding grade point average (GPA) can be found in the following chart:

Grading Scale

Letter Grade	Grade Points	Numerical Grade
A	4.00	94-100
A-	3.70	90-93
B ⁺	3.30	87-89
B	3.00	84-86
B-	2.70	80-83
C ⁺	2.30	77-79
C	2.00	74-76
C-	1.70	70-73
D ⁺	1.30	67-69
D	1.00	64-66

D-	0.75	60-63
F	0.00	Below a 60
W	Withdraw	
X	Incomplete	

Passing grades for graduate students: A through D-.

- A: Outstanding (4 grade points)
- A-: Excellent (3.70 grade points)
- B+: Very Good (3.30 grade points)
- B: Good (3.00 grade points)
- B-: Average (2.70 grade points)
- C+: Satisfactory (2.30 grade points)
- C: Passing (2.00 grade points)
- C-: Passing (1.70 grade points)
- D+: (1.30 grade points)
- D: (1.00 grade points)
- D-: (0.75 grade points)
- F: Failure (0 grade points)
- W: Withdraw (0 grade points)
- X: Incomplete (0 grade points)

If a student's semester GPA falls below 3.00 or their cumulative GPA drops below 3.00, they will be placed on academic probation. It is essential for students to maintain a cumulative GPA above 3.00 as a graduation requirement.

ADEN University has integrated various tools into its e-learning environment to prevent academic dishonesty. These tools include anti-plagiarism software, which analyzes students' uploaded assignments, compares them with online databases, and assesses their originality. Additionally, ADEN utilizes software to verify students' identities during online exams.

To verify student identification, a photo ID must be provided before taking a test, and a webcam will be used throughout the examination to detect any suspicious behavior. This verification process is mandatory both before, during, and after each scheduled exam. In compliance with this regulation, ADEN University provides students with an application that must be installed and activated for the duration of each exam. This application ensures the user's identity and monitors their surroundings to uphold testing regulations.

Academic dishonesty is committed by students who fail to independently complete personal forums, evaluations, or exams. Plagiarism occurs when a student presents work or ideas that belong to someone else. To avoid plagiarism, students must correctly cite their sources and ensure that their work consists of at least 70% original concepts and materials.

For ADEN University's comprehensive plagiarism policy, please refer to section 4.5 of this catalog.

Grading Rubrics

Every course includes a course rubric, ensuring standardization from one faculty member to another for each individual course. Likewise, every written assignment is accompanied by rubrics that assist faculty members in maintaining consistency both from one student to another and from one faculty member to the next, thereby creating uniformity across all sections.

Special Grading

W (Withdraw): A student who voluntarily withdraws from a course between the second week of the term and the week before the last week of the term will be marked as "Withdrawn" and receive a grade of "W" for that course. Any applicable refund will be governed by the refund policy. If a student withdraws from a course during the last week of the term, they will receive a

grade of "F" for the course. It is important to note that once an "X" (incomplete) grade has been granted, a student is not allowed to withdraw from the course. In the event that a university withdrawal is requested while a course is in incomplete status, the "X" grade will be converted to an "F".

X (Incomplete): If a student does not complete a course within the eight-week academic term due to extenuating circumstances, he/she may request an incomplete from his/her instructor. Students must present documentation corroborating extenuating circumstances that include any of the following:

- Death of an immediate family member
- Illness or injury to student
- Illness or injury to an immediate family member
- Involuntary work schedule change or transfer
- Jury duty or direct involvement with a current legal action
- Students called to active military duty Incompletes must be requested by the students via email to their instructor.

Incompletes must be requested by the students via email to their instructor, and the requests should be made before the last week of the term (unless it is a medical emergency). The granting of incompletes is limited to cases where extenuating circumstances genuinely prevent a student from completing a course within the regular timeframe.

Once approved, students with incompletes are granted a maximum of an additional 30 days to complete the course and earn a grade. During this period, the grade of "X" is assigned, and it remains on the student's academic records until the pending assignments are completed and a grade is posted, or until the 30 days elapse.

If the student fails to submit the pending assignments within the additional 30-day window, the remaining incomplete is awarded a grade of zero, which is then averaged into the final grade. Prior to granting an incomplete and recording a grade of "W" in the academic system, faculty members must receive approval from the Dean or the Academic Coordinator.

Course Extension Policy

Upon the student's request and with approval from the respective faculty member overseeing the course, students may receive an extension of up to seven days to successfully complete additional assignments required for the course.

If the entire course experiences a delay and requires an extension, the responsibility lies with the faculty member in charge to determine the duration of the extension, which must not exceed seven days.

Given the possible constraints caused by COVID restrictions, it is acknowledged that some faculty members and students may face challenges in attending classes as required. Hence, we aim to grant flexibility to both faculty members and students in completing their courses promptly. However, specific guidelines will be provided to ensure their successful progression.

Grade Points

The quality of a student's work is evaluated through the assignment of points for various grades. In the 4.0 system, all grades in courses are permanently retained to calculate a student's quality point average. Based on this point system, the student's quality point average can be computed by dividing the total number of quality points earned by the student by the total number of credits assigned to the courses they have enrolled in.

Repeating Courses

At ADEN University, any course in which a letter grade of C or below is earned must be repeated. When a course is repeated, only the higher grade obtained will be used in the computation of the cumulative grade point average. However, all attempts will be noted on the transcripts, and the repeated course will appear with brackets on the transcript.

In a graduate program at ADEN University, students are allowed to repeat a maximum of two (2) courses. Nevertheless, it is important to note that after graduation, no courses may be repeated for the purpose of improving the grade average.

It is worth mentioning that all credits attempted will be considered when calculating the

quantitative Satisfactory Academic Progress status. This ensures a comprehensive evaluation of a student's academic performance throughout their time at the university.

Involuntary/Administrative Withdrawal from the University

If a student stops attending the Institution, violates their responsibilities or Code of Conduct, or fails to meet published academic policies, the University may take the action of administratively withdrawing them. Refunds, if applicable, will be disbursed following the University Refund Policy and based on the official date of withdrawal from ADEN.

2.3.6 Class Attendance and Repeated Courses Attempts Class Attendance

ADEN University delivers its academic programs through an online methodology. Therefore, it is crucial for students to remain connected to the platform to access course materials, engage in class activities, and actively participate in forums and all other university-related activities. Students must not stay offline from the ADEN University academic platform for more than seven (7) consecutive days.

Repeated Courses Attempts

At ADEN University, if a student earns a letter grade of C or below in a course, they are required to repeat that course. However, only the higher grade obtained in the repeated course will be used to calculate their cumulative grade point average. It is important to note that all attempts, including the original and repeated courses, will be recorded on the transcripts, with the repeated course indicated within brackets.

For graduate programs, students are allowed to repeat a maximum of two (2) courses. However, after graduation, no courses may be repeated for the purpose of improving the grade average. It is important to consider that all credits attempted will be taken into account when calculating the quantitative Satisfactory Academic Progress status.

2.3.7 Withdrawal Policy and Procedure

If a student wishes to drop a course or withdraw from the University, he/she must complete the Withdrawal Form and submit it to the Office of the Registrar. Withdrawals are effective the date the student officially notifies the Registrar of the intent to withdraw. This date is used to compute any applicable refund due to the student. All refunds are made in accordance with the University refund policy.

- All voluntary and involuntary withdrawals must abide by the Refund Policy.
- A student who voluntarily withdraws from all courses or the University during the first week of the term (Drop/Add period) is considered “canceled” and receives a full refund.
- A student who voluntarily withdraws from a course after the first week of the term and before the last week of the term is considered “Withdrawn” and receives a grade of “W” for that course. Any refund due to the student is subject to the terms of the refund policy.
- A student who voluntarily withdraws from a course during the last week of the term receives a grade of “F” for the course. A student may not withdraw from a course after an “I” (incomplete) has been granted. If a university withdrawal is requested while a course is in incomplete status, the “I” grade converts into an “F”. (You may refer to the Incomplete Course Section of this catalog).
- The academic calendar provides important dates, including the drop/add period. Students should refer to this calendar before dropping a course.

The Office of the Registrar can be contacted by phone at (786)-332-2122 or by email at registrar@adenuniversity.us.

A formal withdrawal from courses or from the University requires completing and submitting a Withdrawal Form to the Office of the Registrar. Withdrawals are effective the date the student officially notifies the Registrar of the intent to withdraw. This withdrawal date is used to compute any applicable refund due to the student; all refunds are made in

accordance with the University refund policy. The Office of the Registrar can be contacted by phone at (786)-332-2122 or by email at registrar@adenuniversity.us.

Drop / Add Period

Students can drop or add courses during the first week without penalties. However, penalties are levied for adding or dropping a course after the beginning of the second week of the term. Generally, ADEN University discourages students from adding a course after the first week of the term has ended, due to the academic burden this may impose on the student.

Incomplete Course

If a student does not complete a course within the eight-week academic term due to extenuating circumstances, he/she may request an incomplete from his/her instructor. Students must present documentation corroborating extenuating circumstances that include any of the following:

- Death of an immediate family member
- Illness or injury to student
- Illness or injury to an immediate family member
- Involuntary work schedule change or transfer
- Jury duty or direct involvement with a current legal action
- Student called to active military duty

Incompletes must be requested by the students via email to their instructor. Requests should be made prior to the last week of the term (except in the case of a medical emergency). Incompletes are awarded only due to extenuating circumstances which prevent a student from completing a course in the normal timeframe.

Approved incompletes allow a student a maximum of an additional 30 days to complete the course and earn a grade. The grade of “I” is assigned, and it remains in the student academic records until the student completes the pending assignments and a grade is posted or until the end of the 30 days. The remaining incomplete is awarded a grade of zero and averaged into

the final grade if the student has not submitted them within the additional 30- day window. Faculty must receive approval from the Dean or from the Academic Coordinator prior to granting an incomplete and recording a grade of I in the academic system.

Involuntary/Administrative Withdrawal from the University

If the University determines that a student stopped attending the Institution, violated the student's responsibilities/Code of Conduct, or failed to meet published academic policies, he/she may be administratively withdrawn. Any refunds are disbursed in accordance with the University Refund Policy and based on the official date of withdrawal from ADEN.

2.3.8 Leave of Absence

Students may request a leave of absence due to health concerns, a serious family emergency, required military service (call to active duty), extenuating job circumstances, or critical life circumstances that prevent them from being able to take courses for an extended period of time. A formal request, along with documentation of the situation, must be submitted to the Office of the Registrar for consideration at registrar@adenuniversity.us. A student may be on a leave of absence status for a maximum of 180 days.

2.3.9 Readmission

Students absent for a period of 12 months or more must reapply for admission to the University by submitting a new application. Readmission is subject to review by the Dean.

2.3.10 Satisfactory Academic Progress

Before being admitted to ADEN University, all students must read, understand, and agree to the responsibilities outlined in the Student Academic Progress Policy. This policy can be found on the ADEN University website and in the ADEN University catalog. Additionally, students are required to sign the enrollment agreement, confirming that they have read, understood, and accepted the terms of this policy.

At ADEN University, while enrolled as a student, one must fulfill the minimum standards of academic achievement and successfully complete all required courses.

Maximum Program Length: The student must complete the Global Master of Business Administration Degree in no more than 21 months – 150%; Master of Science in Human Capital Management Degree in no more than 18 months – 150%; Master of Science in Marketing and Sales Management Degree in no more than 18 months – 150%; Master of Science in Operations Management Degree in no more than 18 months – 150%; and the Executive Master of Business Administration Degree in no more than 21 months – 150%.
